

Infant Room (6 wks – 18 months)

This is much more than “babysitting.” Babies feel safe, secure, and happy in this classroom. In this program children are provided with educational toys and stimulating activities, 1 to 4 teacher ratio, and a nurturing classroom environment.

Toddler Room (18 months – 3 years)

We provide a stimulating classroom to provide nurturing guidance as they develop and master many milestones. We give toddlers the much needed room to move and explore. Wow! This room is a busy room! This classroom has 1 to 6 ratio.

Preschool Room (3 -5 years)

Our preschoolers are so busy having fun they forget they are learning. We provide a balance of structure as well as freedom to explore and learn. We have a structured preschool time as well as time in centers where they can explore dramatic play, building, sensory, and small group activities. Our small group activity can be anything from handwriting, math skills, cooking projects, and more!

School Age Program (Kindergarten – 13 years)

After school we pick up from Gretna Elementary, Thomas Elementary, Aspen Creek, Palisades Elementary, and Falling Waters. During the summer we have a very busy program for the school age children that consists of a summer reading program, math, art, numerous outings and field trips.
